

SCCA RallyCrossSM

Attached are the results for yesterday's rallycross. If there are any glaring errors from the announced results at the event, please let me know. I had to recreate the results from the logs when the laptop refused to boot today. Fortunately Deb Langdon, the log-keeper at scoring, takes incredibly neat and readable notes. I believe I have all the information, but that may not be the case.

Note that the first four runs were in one direction, and the second four runs were in the opposite direction on a modified course.

Thanks for coming out to the event. Hopefully you had a great time. Special thanks to the folks who came out to just work: Deb Langdon, Meridith Croucher, Mike Liggett, Beth Perry, Carl Blokker. There were a number of spectators and photographers as well. May you all warm up sometime soon...

It was a beautiful, if chilly, day for an event with the sun shining brightly and only a moderate wind. With any luck we will have conditions this good for the next event on February 15. We still have room for plenty of additional drivers, so tell your friends what a great time you had and encourage them to come out.

Our four-event special pricing will remain in effect for the season; if you purchase four events at once, you get a discount on the package as well as a per event discount on any additional events. Member pricing is \$125, while guest pricing is \$ 165.

On single events, there is a discount for Finger Lakes Region members at their first event, either rally or rallycross. This is, of course, not to be combined with the package discount.

And, there is a season-long incentive to bring out your friends. The rally program will pay 1/2 of your (individual) SCCA dues for 2004 to the member bringing the most newcomers to rally and/or rallycross events.

We look forward to seeing you at an event soon.

Debbi Segall,
Finger Lakes Region, SCCA Rally Chair
