

Once Again 06 or

“This Looks Familiar”

October 22nd, 2006

A SOCIAL Car/Road Rally near Victor, NY

Join us for a scenic Sunday afternoon drive over paved roads in the countryside southeast of Rochester, NY. We will start and end at the **THIRSTY TURTLE**

Once Again 06 will consist of a 20-25 minute practice loop followed by a 40-45 minute competition loop. The competition loop is then repeated.

Route instructions will be simple, easy to follow word instructions along with distance, incremental distances and an occasional estimated elapsed time. A map will be included.

Scoring will be based on the times that the teams pass checkpoints and their ability to pass the checkpoint at the same elapsed time during the second loop. The checkpoints will be hidden during the first loop. Observations made along the route may reduce your score.

All that is needed to run this rally are: a currently licensed, inspected and insured vehicle, a licensed driver, a navigator (other passengers are allowed), pen or pencil and clipboard. A stopwatch or other easily set timepiece will make staying on time easier. Additional equipment is optional.

Once Again 06 is a laid back, enjoyable drive through the scenic countryside; a social rally designed to be a good time and therefore will not count for rally series points.
