

**Finger Lakes Region, SCCA
2006 SOLO STANDINGS**

Final

Final standings have been posted. Please review for any potential changes.

A couple of notes related to the contents and format of the file...

TE is season Trophy Eligible. This means that the competitor did five or more local events. This does not address the membership restriction.

TW is season Trophy Winner. These entries are also shown in bold.

If there any questions with the results, please let me know.

Overall, there were 475 entries in our database. This means that there were 475 unique driver/car combinations. If the same driver runs the same car in two different classes during the season, they will have two entries.

The 475 includes our OOR events. At just our eight events, there were 325 entries. Here's the breakdown by number of events attended.

8 - 16
7 - 13
6 - 13
5 - 12
4 - 18
3 - 23
2 - 39
1 - 190

In the past, there was a gradual increase in count as the number of races entered goes down. I'm not positive if this difference is that there are more people doing all (or almost all) events, but it's more likely that there just fewer people doing 2-3-4 events. This is also shown with the number of people doing just one event has gone up to well over 50% of the total.

George M (AS 9)
