NEDiv convention is February 10th in Scanton, PA. Registration will be paid by region for anyone who attends. Go to motorsportsreg.com to register.

SCCA is giving up on Enduro racing, pushing Club Racing Experience, guide is on-line.

Rally had training rally in December. Alan Smith reported training rally went well. First event is Alan's this Saturday and then there will be events every other week. Seven cars entered for this weekend, hopefully entries will pickup before then. Rally will have some in person check points as well as automated GPS/Phone check points.

STPR plans are getting worked on. The event is June 28th and 29th (same weekend as Glen Region divisional race). Event is coming together, meeting was held in December with Wellsboro team.

Solo - Emilio Moran is co-chair with Alex. Tentative schedule is set for the season (have not committed yet). Ownership has had some issues with other tenants. Costs are the same as last year. Site loves us. Talking about putting solar at depot, may hinder us using the site in 5 or more years. The think solo was in the black for 2023, need to go over numbers with Elizabeth and then work up budget for 2024.

Race - still talking to National Office about required groups. We are putting on Super Tour, no one came forward so it looks like Charlie is going to be the chair. Hoping entrants are up for this year.

Meeting adjourned at 7:50 PM
